

ASPCA

120°

Within 30 minutes, the car's interior can climb from 85° to 120°.

102°

On an 85° day, it only takes ten minutes for the inside of your car to reach 102°.

90°

Even if the temperature outside is only 70°, the inside of your car may be as much as 20 degrees hotter!

It's Hot Out!

Don't Leave Your Pet in the Car!

Pets most at risk for overheating are young, elderly or overweight animals, those with short muzzles and those with thick or dark-colored coats.

A car may overheat even when the windows have been left open an inch or two.

Shade offers little protection on a hot day and moves with the sun.

Many states and local governments have laws that prohibit leaving an animal unattended in a motor vehicle under dangerous conditions, which includes hot days. Your car could be damaged or you could be charged with a crime.

If you see an animal in a car on a hot day, try to locate the owner, or call 911! Stay by the car until help arrives.
